Mike – I think you can handle this without management involvement, but you use your best judgment.

If there is any way I can be of help to you on this project, just let me know!

Mike and I are happy to work on the work assignment for Tronox. I'll defer to Kelcey and Aaron whether it is a good use of TEP management time to work with us to develop the work assignment. I'm fine either way. –Mark

I'll invite you and the assigned attorney to the Site along with Toeroek. After we get the hang of it, it should become more routine and the assigned attorney and myself should be able to handle it. The first one will be Tomichi. Mike

I'll get it scheduled. These should probably be individual meetings, since the sites are unique, etc. Do you concur?
